DV and BI [Tableau] - Graded Assignment

(15 Marks)

Forensic Analytics:

Using inventory data **vp.xls** perform necessary joins and create visualizations and give your insights in word/pdf.

Submission:
1. Save the Solution file in Tableau workbook in **.twb formt**.
2. Take the screenshots of the respective visualizations used and write the steps in **word/pdf file.**
3. Include both Tableau Workbook in .twb format & word/pdf file into single zip file then upload this **zip file** as Solution file as per naming convention (**Your Full Name-DV and BI-Graded Assignment**)
